

Aleph Working Group

February 20, 10:00-11:00 am, 222A Hesburgh Library

Agenda:

Document Delivery Update

-

Patron Loads (Justin)

- Have had problems with individual patrons not loading
- Re-wrote load scripts
 - Need sample patrons from each MALC for test load
- Adds ability to create institution-level records (e.g., NDU50, HCC50)
 - Can be used for acquisitions initiator field
 - St. Mary's is currently creating these records manually
 - Can be used for institution-level blocking (not necessarily desirable)

De-Dup/FRBR Changes

- DUP \$\$a N
- FRB \$\$a N
- Will be in affect by end of week.

Holdings Exports

- Problem: There are some very detailed LHRs already in OCLC that we do not want to overwrite
 - Might need to limit to monographs
- Also concerns about keeping up to date

Service Packs

- Most Recent: ALEPH-20.2-ServicePack-9 (Feb 3, 2013)
- Last Implemented: ALEPH-20.2.6 (up to change 3723)

RDA (Mary)

- Getting back to Aleph RDA table changes
- Making sure things are in place for the MALCs
 - A few months ago added fields for authority records (on Paul)
- Bib 264 field was not fully implemented first time around. Newer RDA bibs should have 264.
 - Mary has added lines to index 264 the same as 260
