

Writing Prompt #3  
Due 9/5

Please answer these questions **BEFORE** reading Chapter 3 & the articles! There are no right or wrong answers, I just want you to explore what you know and what you think you know before reading the text.

1. What is your name?
2. What does the term “genetic code” mean to you? Why is it important?
3. What examples do you know of genes interacting with the environment?

**POST READING ACTIVITY – you can upload a picture you take with your phone or turn in a hard copy**

1. Draw & label a typical mammalian cell. Please include the following
  - a. Cell membrane
  - b. Nucleus
  - c. Ribosomes
  - d. Golgi apparatus
  - e. Endoplasmic reticulum
  - f. Mitochondria
  - g. Cytoplasm
2. What are 3 questions you had about the Tishkoff article? What are 3 things you learned?
3. What are 3 questions you had about the Mulligan article? What are 3 things you learned?
