Guide for using the Multicultural Experiences Questionnaire (MEQ) For College Students and Adults

Version 5 © 2021, Darcia Narvaez, Leilani Endicott and Patrick Hill Moral Psychology Laboratory, University of Notre Dame 118 Haggar Hall, Notre Dame IN 46556 dnarvaez@nd.edu; 574-631-7835

Purpose of the Multicultural Experiences Questionnaire

The Multicultural Experiences Questionnaire (MEQ) is a 15-item, 2-factor self-report scale developed for use in measuring multicultural experience and attitudes.

The Multicultural Experiences Questionnaire (MEQ) uses the term "culture" to refer to experience with a wide variety of groups, specifically, various ethnic minorities, immigrants, resident aliens, women, men, and homosexuals, as well as a range of political and religious orientations.

Construction of the Multicultural Experiences Questionnaire

Initially constructed as a college classroom activity, the multicultural experiences questionnaire has gone through several iterations. Endicott, Bock & Narvaez (2003) reported on an earlier longer version (including items with multiple sub-items; MEXQ). Narvaez & Hill (2009) report on the version described in this document (MEQ).

Previous Findings with the MEXQ

Intercultural Development. In comparing multicultural experience with intercultural development (Hammer & Bennett, 1998), Endicott et al. (2003) found that depth of multicultural activities was more strongly correlated with intercultural development (.49) than breadth of multicultural activities (.35).

Moral Reasoning. Endicott et al. (2003) also noted that postconventional reasoning (as measured by the Defining Issues Test; Rest et al., 1999) was correlated with multicultural experiences (depth and breadth; .25). Depth of multicultural activities was also correlated with moral reasoning as measured by the Defining Issues Test (.28 with Maintaining Norms and .24 with Postconventional Reasoning).

Description of the (new) MEQ

The MEQ (Narvaez & Hill, 2009) has two main subscales. The *Multicultural Experience* subscale represents the number of multicultural experiences a person has had. The *Multicultural Desire* subscale represents the person's effort or desire to increase their multicultural experiences.

Two additional scores may be obtained with two additional optional questions (questions 16 and 17). These two subscales can be used as outcome variables. The *Discrimination Perceptions* subscale represents a person's overall perception of discrimination towards special groups. The *Social Group Impressions* subscale represents a person's overall attitude towards special groups.

Reliability

Narvaez & Hill (2009) conducted two studies using a 16-item scale and then a 15-item scale; alphas were good for both studies (first study: alpha = .75; second study, alpha = .80).

Findings with the MEQ

Relation to open-mindedness. Narvaez & Hill (2009) found that higher MEQ scores were correlated with decreased closed-mindedness (Dweck's mindset) and jingoism (Blind Patriotism and Right Wing Authoritarianism), and with a greater likelihood to perceive discrimination and sexism as prevalent issues in the world. In their first study using a 16-item MEQ with minority student sample, Narvaez and Hill (2009) found that MEQ scores were negatively related to two measures of open-mindedness: blind patriotism, r(56) = -.40, p < .01, and to right-wing authoritarianism, r(56) = -.36, p < .01. In their second study using a 15-item MEQ with a mostly majority student sample, Narvaez & Hill (2009) found that MEQ scores were negatively related to right-wing authoritarianism, r(164) = -.48, p < .001, and blind patriotism, r(164) = -.52, p < .001. MEQ scores were related positively both to greater endorsement that discrimination is a problem, r(164) = .28, p < .001, and that sexism is a problem, r(164) = .25, p < .01.

Relation to moral judgment (measured with the Defining Issues Test; Rest et al., 1999). In their second study using a 15-item MEQ with a mostly majority student sample, Narvaez & Hill (2009) found in regression analyses that the MEQ was marginally negatively predictive of endorsement of the personal interest schema, $\beta = -.15$, t(160) = -1.90, p < .06. MEQ scores also negatively predicted endorsement of the maintaining norms schema, $\beta = -.19$, t(160) = -2.38, p < .05. MEQ scores were positively predictive of P scores, $\beta = .32$, t(160) = 4.24, p < .001, as well as N2 scores, $\beta = .23$, t(160) = 3.02, p < .01. These results provide strong support for the primary research question in that multicultural experiences were negatively predictive of endorsing lower stage moral reasoning items, and positively predictive of endorsing higher stage items. Overall, these results support the validity of the MEQ and suggest that multicultural experiences are positively linked to measures of moral judgment.

Scoring

Main Subscales:

The *Multicultural Experience* score is a sum of items 1, 3-5, 7, 12, 13, 14, 15 (n=9; range is 13-38) Add items 1, 3, 4, 12, (item range: 1-4); 5 (item range: 1-6); 7, 13, 14, 15 (item range: 1-5)

The Multicultural Desire score is a sum of items 2, 6, 8-11 (n=6; range is 6-32)

Add items 2, 6, 8-11 (item range: 1-5)

Note: #11 should be reversed

MEQ TOTAL (both subscales added together; n=15; range is 19-70)

Note: Sub-questions in *italias* are not included in the MEQ indices at the present time (5a, 13a, 13b).

Additional Scores:

Add the sub-items of question 16 for the *Discrimination Perceptions* score (score range 16-90). Add the sub-items of question 17 for the *Social Group Impressions* score (score range 16-90).

Permission and Publishing

NOTE: When you publish any reference to the MEQ, please cite this guide.

Before publishing test items, you must have a permission letter from us describing your study and where it will be published.

So we can collect a database of the scale, we would appreciate a copy of your data, whether or not you publish it. We will credit you with your work in this guide.

MEQ

Please answer these questions according to your experience.

1. I travel out of t	he country						
1	2		3	4		5	
Never	1-2 times in my life	e	3 times	4 or m	ore times	Regularly	
2. I want to travel	l outside of my co	untry.					
1	2	3		4	5		
Not true at all					Very tru	Very true	
3. I speak well							
1	2	3		4	5		
1 language	2 languages	3 languag	ges	4 languages	More tha	an 4 languages	
4. I correspond c	urrently with peop	ole from o	ther cou	ntries			
1	2	3	3 4		5		
Never	1 country	2-3 coun	tries	4 countries	countries more than		
5. I have friends t	from cultural-racia	al-ethnic	backgrou	ınds different th	an my owi	ı	
0 friends	1 friend	2 friends		3 friends	4 or mor	re friends	
5b.How close are they	? Very close		Moderately	v close	Not very i	close	
6. I want to have	friends from diffe	rent cultu	ıral-racial	l-ethnic backer	ounds.		
1	2	3		4	5		
Not true at all					Very true		
7. I work with pe	ople with cultural-	-racial-etl	nnic back	kgrounds differe	ent from m	y own.	
1	2	3		4	5		
Never					Always		
8. I go out of my	way to hear/read,	/understa	and view	points other tha	n my own		
1	2	3		4	5		
Never				Always			
9. I try to get to k	now people who a	are differe	ent from	me.			
1	2	3		4	5		
Never					Always		
10. I push myself	to explore my pre	iudices a	nd biases	s.			
1	2	3		4	5		
Never					Always		
11. Discussing iss	sues of discrimina	tion, raci	sm and o	ppression make	es me unco	omfortable.	
1	2	3		4	5		
Never					Always		
12. I have had co	urses in intercultu	ral comm	nunicatio	n			
0	1 course	2 courses	3	3 courses	4 or mor	re courses	
13. I have lived in 0 13a. How many time 13b. How many diffe		-	(with a vo	•		my own) over 9 months	

14. I pay attention to news about the world beyond the U.S.A.

Never	Rarely	Sometimes	4 Frequently	5 Always
15. I enjoy n	nedia and art fron	n different cultures	4	5

Sometimes

Frequently

Always

Rarely

Never

ADDITIONAL QUESTIONS (not part of the MEQ):

16. In terms of the amount of discrimination that exists, I rate the following:

In my country	No				Lots of
this group faces	discrimination				discrimination
Native American	1	2	3	4	5
Hispanics/Latinos	1	2	3	4	5
Black	1	2	3	4	5
White/Caucasian	1	2	3	4	5
Asian	1	2	3	4	5
South Asian	1	2	3	4	5
Immigrants	1	2	3	4	5
Women	1	2	3	4	5
Men	1	2	3	4	5
Homosexuals	1	2	3	4	5
Lesbians	1	2	3	4	5
Conservatives	1	2	3	4	5
Liberals	1	2	3	4	5
Fundamentalists	1	2	3	4	5
Right-wing groups	1	2	3	4	5
Left-wing groups	1	2	3	4	5
30 1					

17. My feelings towards these groups

My feelings	Very				Very
towards this group	negative				positive
Native American	1	2	3	4	5
Hispanics/Latinos	1	2	3	4	5
Black	1	2	3	4	5
White/Caucasian	1	2	3	4	5
Asian	1	2	3	4	5
South Asian	1	2	3	4	5
Immigrants	1	2	3	4	5
Women	1	2	3	4	5
Men	1	2	3	4	5
Homosexuals	1	2	3	4	5
Lesbians	1	2	3	4	5
Conservatives	1	2	3	4	5
Liberals	1	2	3	4	5
Fundamentalists	1	2	3	4	5
Right-wing groups	1	2	3	4	5
Left-wing groups	1	2	3	4	5

^{*}questions are optional and not part of MEQ scores
