

# JavaScript 3

## Agenda

- Homework questions!
- Technology review (board).
- By the way
- Single page apps (frameworks)
  - AngularJS
  - BackboneJS
  - EmberJS
- Maps
- WebGL

## By the way

- Browser caching!
  - Browser dev tools.
  - ?id=random
- Method chaining!
  - [https://en.wikipedia.org/wiki/Method\\_chaining](https://en.wikipedia.org/wiki/Method_chaining)
  - <https://schier.co/blog/2013/11/14/method-chaining-in-javascript.html>
- Document is ready!
  - <https://learn.jquery.com/using-jquery-core/document-ready/>
- Choosing the right JS library!

## Single Page Apps

- [https://en.wikipedia.org/wiki/Single-page\\_application](https://en.wikipedia.org/wiki/Single-page_application)
- Motivation (board)
  - Server: I don't want to do this work any more.
  - Client: That's ok, I'll take care of it!
- All necessary code (HTML, JavaScript, CSS) is retrieved on the first page load.
- Other resources are loaded dynamically.
- <https://angularjs.org/>
  - Routing
  - Rendering

- 
- Data manipulation

## Maps

- How do they work?
  - Uses normal HTML elements (div tags).
  - Layers (Images).
    - <http://www.openstreetmap.org>
    - Google, Bing, Mapbox etc.
  - SVG for shapes
  - GeoJSON
    - <http://geojson.org/>
    - Format for encoding geographic data structures.
  - Events
- <http://leafletjs.com/>
- <http://leafletjs.com/examples/quick-start/>

## WebGL

- <https://www.khronos.org/webgl/>
- <https://get.webgl.org/>
- Cross-platform, royalty-free web standard for a low-level 3D graphics.
- Based on OpenGL ES.
- Exposed to JS via the HTML5 Canvas element.
  - Canvas can be used for graphics (WebGL), graphs, photo compositions, animations, real-time video/photo processing/rendering.

```
<canvas id="canvas"></canvas>
```

- Plugin-free 3D to the web.
- ThreeJS makes it easy to do WebGL
  - <https://threejs.org/>
  - <http://chandlerprall.github.io/Phisijis/>
- Examples
  - <https://experiments.withgoogle.com/chrome?tag=WebGL>
  - [https://www.khronos.org/webgl/wiki/Demo\\_Repository](https://www.khronos.org/webgl/wiki/Demo_Repository)
