# EngineRoom®

## Resource Center

Welcome to the MoreSteam EngineRoom® Software Add-in for Microsoft Excel®, which adds data analysis and charting capabilities not otherwise present in Excel. You can download and unlock your copy of EngineRoom using the links on this page.

**NOTE:** EngineRoom for Excel will not function properly if different versions of Excel are installed on the same computer. Please remove all versions of Excel except the one you will use before installing the corresponding version of EngineRoom.

#### IMPORTANT

- Make sure your computer meets the system requirements before installing EngineRoom. The system requirements are listed here: [http://www.moresteam.com/university/requirements\\_er.cfm](http://www.moresteam.com/university/requirements_er.cfm)
- Excel® **must be closed** when you download EngineRoom®.
- If you are running anti-virus software, you **may be required** to adjust your security setting to a lower level to download the executable file (.exe). In particular, this issue has been noted with Norton™ Internet Security. After downloading the software you may return your security setting to a higher level.
- Pop-up blocker **must be turned off**. Click [here](#) to see a demonstration of how to turn off the pop-up blocker for Internet Explorer users with Windows XP Service Pack 2. Otherwise, see the setup instructions for your pop-up blocker.
- The Microsoft Excel Analysis Toolpaks **must be installed** for EngineRoom to function properly. See [this](#) EngineRoom FAQ for more information.
- Internet Explorer Security Setting **must be set to low**. [Click here](#) for instructions on how to set the security level to low for Internet Explorer users with Windows XP

### Unlock Code Retrieval

Please enter the key code obtained from the "About Engine Room" selection on the Engine Room menu in Excel:
