

Daniel Jasek
Internship at OneParish

catholic.connected.community.

ONE PARISH

- small startup recently acquired by J.S. Paluch
 - Innovation Park
- platform to grow parish communities and increase involvement and giving
 - personal faith resources: daily Scripture readings, radio
 - parish features
 - calendar
 - donations made easy
 - increased giving
 - messaging
 - directory

What I Did

- worked part-time for 3 semesters
- translating features from mobile app to web app
 - online donations
 - donation history
 - crowd-funding pages
 - messaging

Technologies

- Express.js
- Parse
 - application development program in the cloud
 - uses MongoDB
 - used to be self-hosted, now is open source
- Stripe
 - eCommerce Platform
 - keeps credit card information off of your servers and references transactions via tokens
- Angular.js

stripe
