Course Objective: The objective of this course is to help you develop a good understanding of the basic concepts in game theory and learn how to apply these concepts to better understand strategic interactions. Important topics covered in this course will include: normal form games, extensive form games, Nash equilibrium, subgame perfect Nash equilibrium, repeated games, the folk theorem for repeated games, bargaining, strategic voting and games of incomplete information. We shall also use different examples to illustrate how these concepts and analytical tools can be useful in understanding strategic behavior in economic, political and social interactions.
Text: Joseph E. HARRINGTON: Games, Strategies, and Decision Making, Second Edition, Worth Publishers, 2015 (Recommended).

Course Requirements: The requirements for this course are:

| Problem Sets (Three out of Four) | $24 \%$ |
| :--- | ---: |
| Paper | $8 \%$ |
| Midterm Exams (Two) | $34 \%$ |
| Final Exam | $34 \%$ |
| Total | $100 \%$ |

There will be four homework assignments during the semester, out of which the best three will count for the final grade. Students can work in groups for homework, but each student must submit her/his own work. Students can form groups to work on the paper. There will be two midterm exams and one final for the course. The final exam will be comprehensive. Students must take all the exams at the scheduled times.

Honor Code: The Notre Dame Academic Code of Honor Pledge (available at: https://honorcode.nd.edu/) is observed in this course. Notre Dame students are expected to abide by Academic Code of Honor Pledge. "As a member of the Notre Dame community, I acknowledge that it is my responsibility to learn and abide by principles of intellectual honesty and academic integrity, and therefore I will not participate in or tolerate academic dishonesty."

Miscellany: My Office Hours will be on Tuesdays and Thursdays between 2:00-3:00 PM and by appointment in 3076 Jenkins Nanovic Hall. You are strongly encouraged to discuss with me questions you may have regarding the course material. My office phone is (574) 6317590 and email address is rath.1@nd.edu.

## Time Table:

| Month | Date | Day | Topic | Others | No. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Jan | 17 | Tue | Chs. 01, 02 | Introduction | 29 |
|  | 19 | Thu | Chs. 01, 02 | Introduction | 28 |
|  | 24 | Tue | Ch. 03 |  | 27 |
|  | 26 | Thu | Ch. 04 |  | 26 |
|  | 31 | Tue | Chs. 04, 05 | HW 1 Assigned | 25 |
| Feb | 02 | Thu | Ch. 06 |  | 24 |
|  | 07 | Tue | Ch. 07 |  | 23 |
|  | 09 | Thu | Ch. 07 | HW 1 Due | 22 |
|  | 14 | Tue | Ch. 08 | HW 2 Assigned | 21 |
|  | 16 | Thu | Chs. 08, 09 |  | 20 |
|  | 21 | Tue | Chs. 08, 09 |  | 19 |
|  | 23 | Thu | Chs. 13, 14 | HW 2 Due | 18 |
|  | 28 | Tue | Chs. 14, 15 |  | 17 |
| Mar | 02 | Thu |  | Midterm 1 | 16 |
|  | 07 | Tue | Chs. 14, 15 |  | 15 |
|  | 09 | Thu | Bargaining |  | 14 |
|  | 14 | Tue |  | Mid-semester Break |  |
|  | 16 | Thu |  | Mid-semester Break |  |
|  | 21 | Tue | Bargaining | HW 3 Assigned | 13 |
|  | 23 | Thu | Voting |  | 12 |
|  | 28 | Tue | Voting |  | 11 |
|  | 30 | Thu | Ch. 10 | HW 3 Due | 10 |
| Apr | 04 | Tue | Ch. 10 |  | 09 |
|  | 06 | Thu |  | Midterm 2 | 08 |
|  | 11 | Tue | Ch. 10 | HW 4 Assigned | 07 |
|  | 13 | Thu | Ch. 10 |  | 06 |
|  | 18 | Tue | Ch. 11 |  | 05 |
|  | 20 | Thu | Ch. 11 | HW 4 Due | 04 |
|  | 25 | Tue | Ch. 11 |  | 03 |
|  | 27 | Thu | Ch. 11 | Paper is Due | 02 |
| May | 02 | Tue | Review |  | 01 |
|  | 11 | Thu | 10:30 AM | Final |  |

## Important Concepts:

Ch. 01: Strategic reasoning, Strategic interdependence, Preferences, Beliefs.
Ch. 02: Extensive form games of perfect and imperfect information, The notion of strategy, Strategic form games, Moving from extensive form to strategic form and vice versa, Common knowledge.

Ch. 03: Dominant strategy, Strong and weak dominance, Solving a game when rationality is common knowledge, Iterative deletion of strictly dominated strategies.

Chs. 04 \& 05: Simultaneous move games, Normal/Strategic form, Payoff matrix, Nash equilibrium, Properties of Nash equilibria, Symmetric games.

Ch. 06: Optimization in continuous variables, Reaction or best response functions, Price and quantity competition, Tragedy of the commons.

Ch. 07: Choice under uncertainty, Expected value, Expected utility and payoffs, Mixed strategies, Mixed strategy Nash equilibrium, Properties of mixed strategy Nash equilibria.

Ch. 08: Sequential move games, Game tree, Extensive form, Decision nodes, Nash equilibrium, Backward induction, Subgame perfect Nash equilibrium, Offequilibrium paths, Stackelberg leadership.

Ch. 09: Sequential games of imperfect Information, Information sets, Subgame perfect Nash equilibrium, Moving between extensive and strategic form games.

Ch. 10: Games with private information, Bayesian games and Bayes-Nash equilibrium, Auctions and bidding, Common value and winner's curse.

Ch. 11: Signaling games, Perfect Bayes-Nash equilibrium, Separating and pooling equilibria, Job market signalling, Market for lemons, Adverse selection, Moral hazard, Incentive compatibility.

Chs. 13, 14 \& 15: Finitely repeated games, Infinitely repeated games, Subgame perfection, Cooperation and Collusion, Discounting, Folk theorem, Punishment strategies, Grim-trigger strategies, Applications.
(Extra Topic) Bargaining: The Nash bargaining problem, Utilities possibility set, Disagreement outcome, Axioms on the solution and the solution, Applications of the Nash bargaining solution.
(Extra Topic) Topics in Voting: The Condorcet paradox, Arrow's impossibility theorem, Borda count, Manipulation of voting schemes.

## Guidelines for Answering Problem Sets and Exams:

1. Write clearly and legibly. (If necessary double space lines while writing.)
2. Always label the axes in graphs.
3. Any mathematical derivation should contain all the steps.
4. Explanation counts most, especially in True/False questions.
5. If several explanations are available, for example (A) Verbal or Intuitive, (B) Geometric (with the aid of Graphs) and (C) Mathematical; then give at least two. Preferably the geometric one and one of verbal and mathematical.

## Important Dates:

|  | Date | Day | Event | Coverage |
| :--- | :--- | :--- | :--- | :--- |
| 1. | Jan 31 | Tue | HW 1 Assigned |  |
| 2. | Feb 09 | Thu | HW 1 Due |  |
| 3. | Feb 14 | Tue | HW 2 Assigned |  |
| 4. | Feb 23 | Thu | HW 2 Due |  |
| 5. | Mar 02 | Thu | Midterm 1 | Chs. 01-09. |
| 6. | Mar 21 | Tue | HW 3 Assigned |  |
| 7. | Mar 30 | Thu | HW 3 Due |  |
| 8. | Apr 06 | Thu | Midterm 2 | Chs. 13-15, Bargaining, Voting. |
| 9. | Apr 11 | Thu | HW 4 Assigned |  |
| 10. | Apr 20 | Thu | HW 4 Due |  |
| 11. | Apr 27 | Thu | Paper is Due |  |
| 12. | May 11 | Thu | Final | Chs. 03-06, Chs. 08-11, Chs. 13-15, |
|  | 10:30 AM |  |  | Bargaining, Voting. |
