

### **Project 3. Notre Dame's Sacred Heart Basilica.**

**Project.** Visit Notre Dame's Sacred Heart Basilica and examine its architectural features carefully both on the inside and on the outside. What style does it seem to conform to? Are there features that deviate from this style? Does the Sacred Heart Basilica represent this style in a strict classical way, or is it a later building that simply incorporates many of its features?

**Alternative (for 5 bonus points).** Visit St. Patrick's Church and St. Hedwig's Parish Church in downtown South Bend. Compare and contrast their architectural features.
