DEVELOPMENT LIAISONS

There are a myriad of campaign priorities, and they span the entire University spectrum from student life to research to athletics facilities. As you seek additional information about particular priorities, please reach out to the academic advancement director in each College or School, as well as the liaisons who serve as subject matter experts in key areas. They have a deep and broad knowledge of the rationale behind each priority as well as an implicit understanding of how the funding will benefit the University, college, or division. The liaisons can tell moving stories of how particular academic areas are forwarding Notre Dame's mission to be a force for good in the world.
